Brief Presentation

I am a native Portuguese Translator with excellent grammar, punctuation and spelling skills and I have almost as great skills in English. My brain is definitely bilingual. I have great knowledge of Spanish too.

I have been a full time freelance Professional Translator since 2013, specializing in Business, Marketing and Social Sciences. However, I have also performed successful translations in many other different fields. I am very detail and quality oriented.

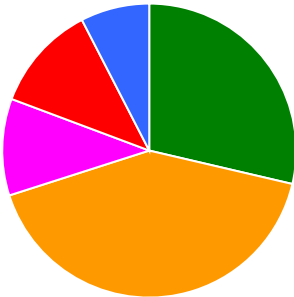

Before that, I was an Administrative Assistant for over 5 years. I translated some website articles as a volunteer (since 2010) and I worked for an import/export company where I was responsible for all external communications (English/Spanish). I also performed some translation work in one of the companies I worked in.

This is what I love to do, so I am actively looking for translation work!
